

## How to use the “Ales’ hands”-template

1. Print both pages (in full color or black and white) on –strong- paper. You can use any paper size you like, the resolution is high enough.
2. Cut out the template with the hands, using the red line.
3. Cut out the Ales template using the cut-out hands. Ales’ head and sign will overlap with the hands template.
4. Glue the two cut outs together with their back sides, so the head overlaps.
5. The Hands are ready to use!
  
6. Find a fence or a different framework with bars.
7. Stick Ales behind bars and fold the hands around them.
8. Fix the template to the bars with the hands, by using either double-sided tape, glue, staples, or whatever suits you.
9. Have Ales noticed!
