### Project Background

Against the background of concerning shrinking civic space trends in the European Union (EU), this project aims to contribute to creating an enabling environment for civil society in five EU Member States that are in acute need of civil society strengthening: Romania, Bulgaria, Croatia, Slovenia, and Portugal. The project will allow Civil Society Organisations (CSO's) working on women's rights, environmental justice, and anti-corruption to be more effective in the promotion of EU values, be more resilient to threats, and be able to quickly respond to concerning trends affecting space for civil society in their respective countries. This will ultimately lead to better protection, promotion, and acknowledgment of the EU fundamental rights and values in the target countries and, consequently, will contribute to strengthening
